

# Product and Service Summary

## Supplier to Demanding Application Industries

American Roller has built an industry-wide reputation for chemical analysis and compound purity, technical service and applications engineering, responsive service, repeatable quality, innovation and superior value. American Roller has consistently earned the confidence of original equipment manufacturers and end users in a broad array of industrial roller applications.

Currently serving the following industrial markets:

Graphic Arts	Textiles
Packaging	Metals Processing
Paper/Film/Foil Converting	Health Imaging
Powder & Bulk	Food & Beverage
Petrochemical	Pulp & Paper
Business Machines	Non-Wovens

---

## Types of Rolls, Fabrications and Services

American Roller has the capability to provide new cores and coverings, as well as recovering services, for a multitude of product offerings. We offer original core fabrication and core repair from our in-house machine shops. From the steel to the rubber, we offer single source accountability.

Elastomeric Coverings	Heated and Chilled Rolls
Urethane Coverings	CNC Grooving
Hard Coat Coverings	Balancing
Straight Rolls	Roll Grinding & Repair
Bowed/Spreader Rolls	Roll Surveys
Composite Rolls	Super Finishing & Polishing

---

## Coatings

Plasma Coatings can provide customers with a combination of highly specialized coatings, applied in either our manufacturing locations or on-site at the customer's facility.

These coatings give exceptional performance in the critical areas of:

Release	Non-stick
Low friction	Corrosion Resistance
Traction	Cleanability
Wear Resistance	Traction and Release
Conductivity (thermal & electrical)	

---

American Roller is dedicated to providing innovative solutions for roller requirements that are small or large. We can accommodate up to 9 feet in diameter, 40 feet in length and up to 15 tons in overall weight. With our breadth of product lines and depth of services, American Roller is truly a one stop shop for all of your roller needs.
